

Capability Statement (Cage 90562)

Morehouse Instrument Company, founded in the 1920's, is a family owned, veteran friendly small business. We manufacture small and large batches of force and torque application machines, measuring instruments, and provide calibrations services. We offer:

- Calibrating Machines
- Deadweight Machines
- Aircraft Scale Calibrator
- Deadweight Tensiometer
- Proving Rings
- Load Cells
- Calibration Adapters
- Force Calibration
- Torque Calibration
- Training

Differentiators

Morehouse Instrument Company's in-house manufacturing facility can build equipment to your specifications. Our ISO/IEC 17025, ANSI/NCSLI Z540.1 & .3 accredited calibration services use primary standards to obtain the lowest uncertainties (10-50 times lower than most service providers) possible. Highlights include:

- TUR of 4:1 on most calibrations
- Calibrations with lowest uncertainties in commercial markets
- More accurate than most
- Training – In House and On-Site Available
- Large inventory of load cells
- More capability
- More custom work

Contracting Highlights

Client Name	Date	Award	Description
NASA	1/22/2021	\$11,090	Calibration Adapters
Navy	11/12/2020	\$678,600	Deadweight Calibrating Machine
NASA	11/5/2020	\$15,200	Calibrations
Department of Defense	9/30/2020	\$1,814,800	Laboratory Equipment
Department of Defense	6/04/2020	\$105,974	Calibration Set
Department of Defense	12/01/2019	\$915,700	Deadweight Calibrating Machine
NASA	4/16/2019	\$60,000	Deadweight Calibrating Machine
NASA	3/28/2019	\$27,540	Calibration Adapters
Los Alamos National Lab	8/30/2018	\$77,374	Scale Calibrating Machine
US Air Force	3/09/2017	\$102,520	Deadweight Tensiometer

Company Designations
